

Introducing ISOFLAMES

**VENTED & VENT-FREE
LINEAR BURNERS**

We're raising the bar in style and function with our **NEW** line-up of Isoflames Vented & Vent-Free Linear burners. Isoflames burners are the perfect foundation to create the desired visual impact of flame presentation, burning efficiency, and beauty.

Shown here is the
**60" Vent-Free Fireplace with
42" Vent-Free Linear Burner.**

VENTED LINEAR BURNER

Make an impression with our new ANSI-rated linear burners, available in sizes ranging from 24" to 96". Made from quality stainless steel, the proprietary, patented, quick-connect burner system delivers a more modern look and adds appeal to any Maximus Linear or solid fuel vented fireplace.

VENTED

Model Sizes: 24" - 96"

Vented Linear Burner shown with optional Driftwood Log Set.
Available for Vented Only

VENT-FREE LINEAR BURNER

The exclusive, elegant and sleek Isoflames Vent-Free Linear Burners accentuate the appearance and ambiance of any room and offer a choice of vibrant fire glass media or optional fireballs. Isoflames Vent-Free Linear burners stand at 2.5" height, creating the lowest profile burner on the market. Available with three-tier fireball tray, sold separately.

VENT-FREE
