

**ISOKERN**  
by earthcore

A photograph of an outdoor living space. In the center is a large, multi-tiered stone fireplace with a fire burning inside. The fireplace is built with natural, irregular stones. In front of the fireplace is a circular, dark brown wicker fire pit. Surrounding the fire pit are several matching dark brown wicker armchairs. The patio is paved with light-colored stone tiles. In the background, there are lush green trees and a black metal fence. The overall atmosphere is warm and inviting.
